

Creation and establishing of energy-saving explosive technologies and facilities of the prudent guided stratification of rock massive

State registration: 0109U001546, HTYY “KHP” - № 2259-п

Head prof Kravets Viktor G.

Results.

Experimental researches of blasting cavity in soil massif and deformed irregular zone forming in pulsated regime with structurizing materials participation are provided for seismic-steady and waterproof screens organization. The acting models of hydraulic jack and gas producer equipment are developed...
